Education

BS Software Engineering   **11/2021 - Present**

DHA Suffa University, Karachi

I'm a Software Engineering student with a background in Computer Science. I switched fields due to personal reasons, which has given me a unique perspective. I'm committed to learning and excited to contribute to the tech industry.

Employment

Software developer   **08/2021 - Present**

Wallsoft Technologies, Karachi

As a Software Developer at Wallsoft Technologies, I have gained extensive experience in .NET MVC, with proficiency in HTML, CSS, JavaScript, C#, SQL, Crystal Reports, and Bootstrap. I have been involved in the complete software development cycle, from product creation to troubleshooting, and I'm committed to delivering high-quality solutions. I am dedicated to becoming a full-stack developer, continually expanding my skill set to contribute effectively to the development of robust software products.

Achievements

I had the honor of winning GDG Hackstack 2023 for our groundbreaking project, Uni-Mentor, developed in collaboration with the talented team at StudyNinja AI. Uni-Mentor is an AI assistant designed to guide students through their university journey. This achievement represents our commitment to innovation and the tireless effort we put into creating a tool that has the potential to transform the educational experience. It's a testament to our dedication to harnessing technology to make a positive impact, and we're excited to continue pushing the boundaries of what AI can do for education.
